Lumahang, Doctora alexa merry s.

Student

PROFILE

I am a 3rd-year BSIT student focused on Digital Arts, bringing together a love for technical organization and visual design. I work best when things are clear and structured, but I'm always quick to adapt when project needs shift unexpectedly. People know me as someone who is reliable, easy to communicate with, and constantly looking for ways to learn. I'm excited to bring this mix of operational and creative skills to a team where I can support day-to-day workflows and keep growing.
